

Sales Revenue Analysis 2022

Revenue Performance Analysis Across Products, Clients, Countries & Categories

Prepared By:
Nandini Bapanpalli

Date:
June 2026

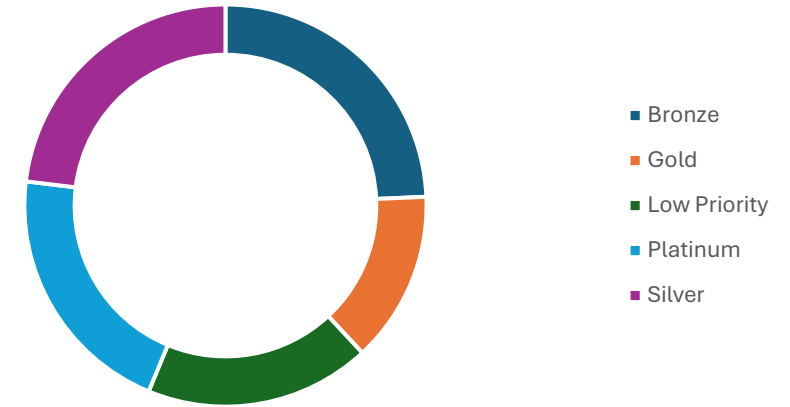

Dataset Overview

- **Objective**
 - Analyse sales revenue performance across products, clients, countries, and client categories.
 - Identify key business insights and revenue trends.
- **Dataset Attributes**
 - Product
 - Client
 - Client Category
 - Product Country
 - Quarterly Revenue (Q1, Q2, Q3, Q4)
 - Total Revenue

Key Statistics

Total Revenue: ₹99.87 Cr
Countries: 7
Categories: 5
Products: 25
Clients: 91

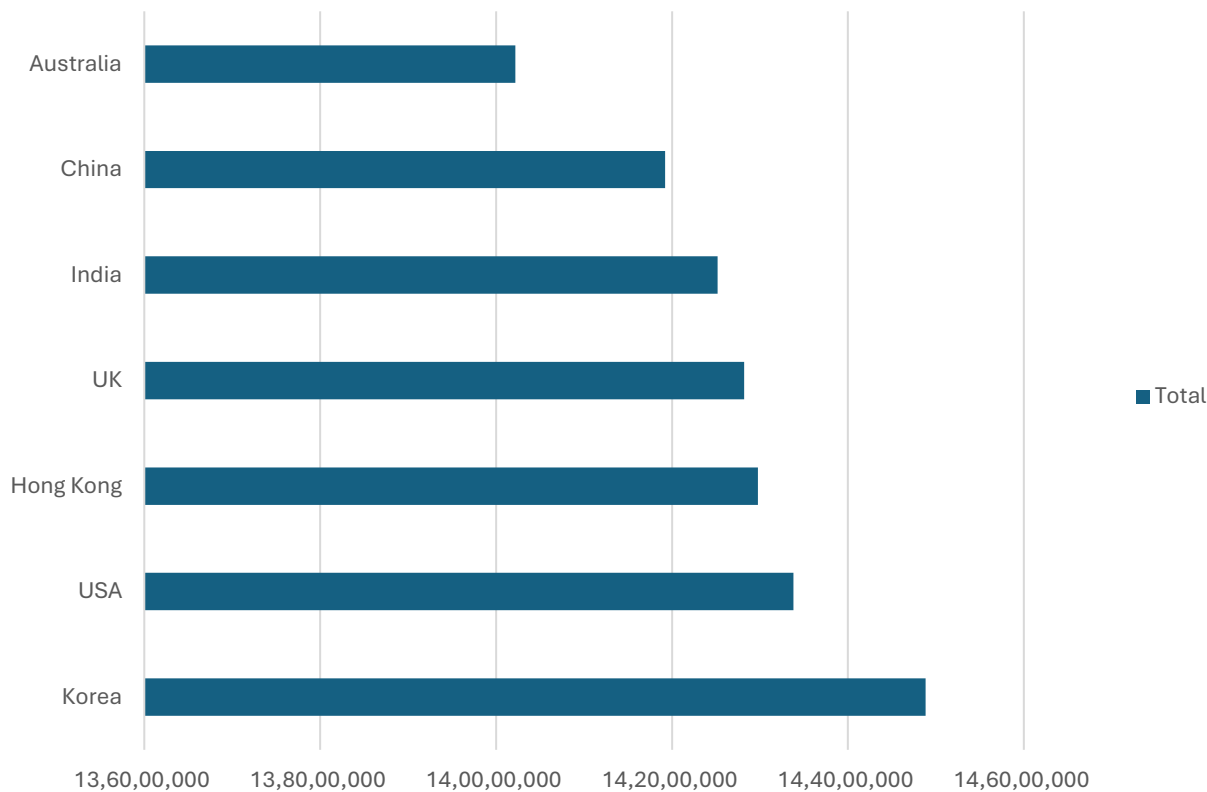

Revenue by Client Category

- **Observation**
- **Key Findings**
 - Bronze category generated the highest revenue (₹24.27 Cr).
 - Gold category generated the lowest revenue (₹13.76 Cr).
 - Bronze and Silver categories contribute nearly half of total revenue.
- **Business Insight**
 - Focus on retaining Bronze and Silver clients.
 - Improve engagement with Gold category clients.

Revenue by Country

Revenue by Country

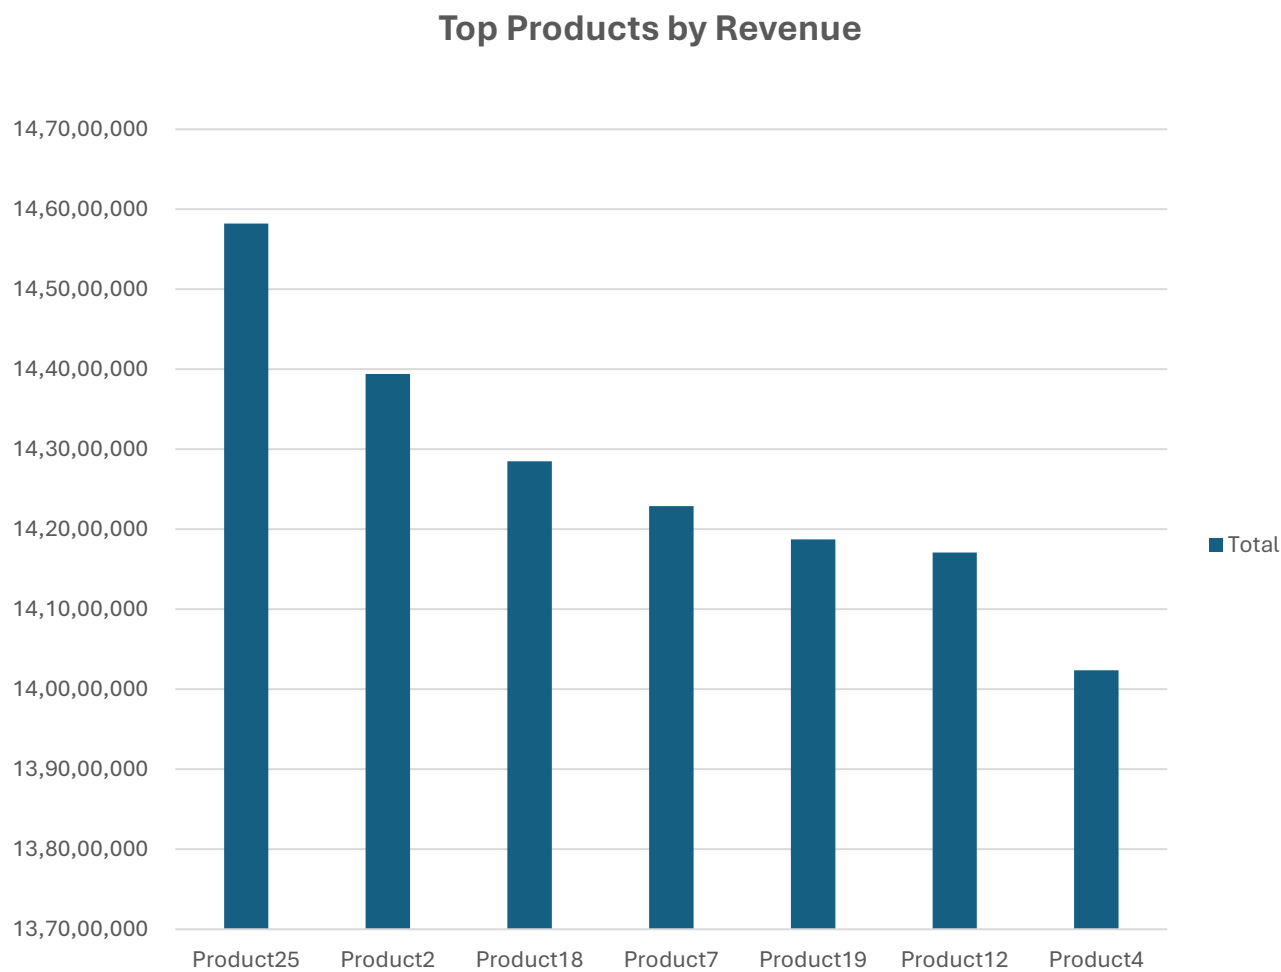

Key Findings

- Korea generated the highest revenue (₹14.49 Cr).
- Australia generated the lowest revenue (₹14.02 Cr).
- Revenue contribution is relatively balanced across countries.

Business Insight

- Replicate successful sales strategies from Korea.
- Explore growth opportunities in Australia.

Top Products by Revenue

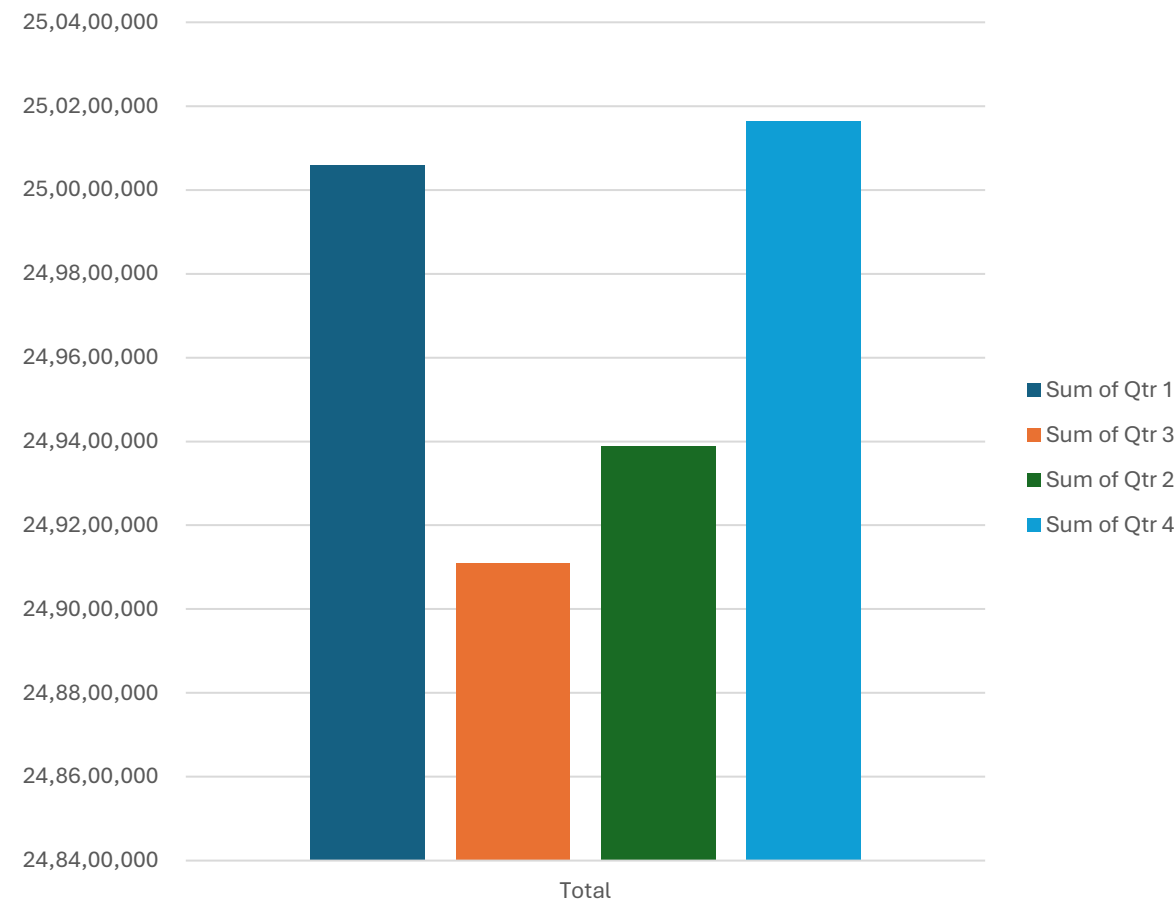

Key Findings

- Product25 generated the highest revenue (₹14.58 Cr).
- Product2 and Product18 also performed strongly.
- Revenue among top products is closely distributed.

Business Insight

- Continue investing in high-performing products.
- Analyse factors driving Product25's success and replicate them across other products.

Quarterly Revenue Trend

Key Findings

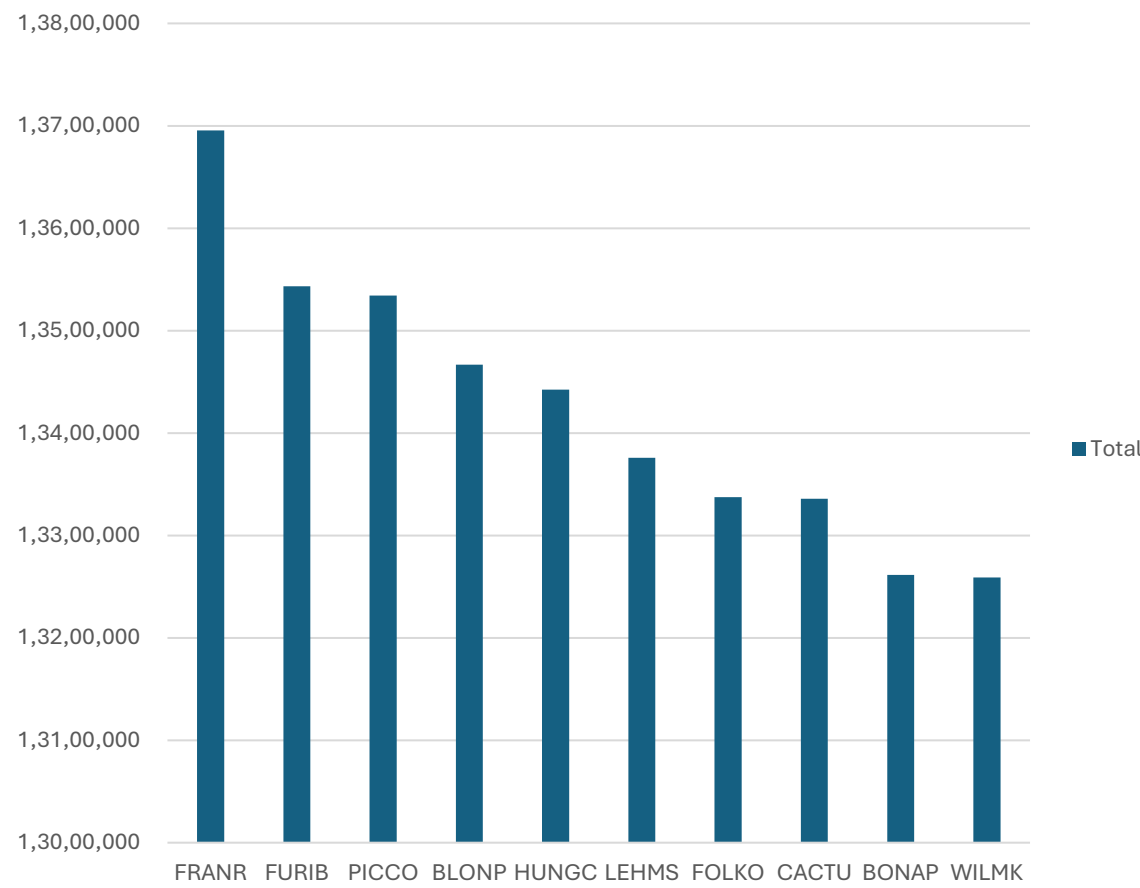

- Q4 recorded the highest revenue (₹25.02 Cr).
- Q3 recorded the lowest revenue (₹24.91 Cr).
- Revenue remained stable across all four quarters.
- No major fluctuations were observed.

Business Insight

- Consistent revenue indicates stable business performance.
- Q4 strategies can be analysed and replicated to improve future quarterly performance.

Top Clients by Revenue

Top 10 Clients by Revenue

Key Findings

- FRANR generated the highest revenue (₹1.37 Cr).
- FURIB and PICCO closely followed among the top clients.
- Revenue among top clients is fairly balanced, with no major gaps.
- No single client contributes a significantly higher share of revenue.

Business Insight

- Strengthen relationships with top-performing clients.
- Identify successful practices used with FRANR and apply them to other clients.
- Diversified client revenue reduces dependency risk.

Business Recommendations

Strategic Recommendations

- Focus on retaining Bronze and Silver category clients.
- Improve engagement and sales initiatives for Gold category clients.
- Replicate successful sales strategies from Korea in other countries.
- Continue investment in high-performing products such as Product25.
- Strengthen relationships with top revenue-generating clients.
- Maintain quarterly revenue stability while identifying growth opportunities.

Conclusion

Summary of Findings

- Total Revenue generated: ₹99.87 Cr
- Korea recorded the highest country-wise revenue.
- Bronze category contributed the highest revenue.
- Product25 emerged as the top-performing product.
- Revenue remained stable across all four quarters.
- Client revenue distribution is diversified and balanced.
